PGCert Workshop Dates 2025-26

Below are the main online workshop sessions for the PGCert. All of these are Sundays. Timing is 10-5 by default, though some days will be a bit shorter.

In addition to the main workshop days, there are some webinars and drop-in sessions (one or two a month). These are shorter evening sessions (c.60mins), and the dates will be confirmed in due course.

Also listed below are two Sundays where there are live assessments. As well as these live assessments, there are several written assessments on the PGCert. The submission deadlines for these are spread regularly through the year, and you will have full details on enrolment.
